Celebrating Over 50 Years

GIRL SCOUT PROGRAMS

For Daisies

Birdwatching

Observe and learn how to identify a variety of birds by their color, size, shape, beak, field marks plus how to use binoculars. How can you help a bird without harming it? *Daisy Friendly and Helpful Petal, Daisy Considerate and Caring Petal*

Discovering Dinosaurs

Using authentic fossils, replicas and scale models, delve into the world of dinosaurs, discover their unique characteristics, plant eaters vs. meat eaters, and more! Girls will also participate in a fossil "dig" and make their own "fossil". 1 hour 15 minutes long.

Daisy Eco-learner

Learn how to prepare yourself for the outdoors and protect nature through engaging, hands-on nature exploration. Learn "Leave No Trace" policy. *Daisy Eco-learner Badge*

Daisy Outdoor Art Maker

Discover colors, shapes, and sounds in nature as we explore the woods and meadow communities. In our beautiful native habitat garden, express yourself as you create a piece of art! *Daisy Outdoor Art Maker Badge*

Daisy Trail Adventure

Learn how to prepare for the outdoors including what to wear, how to plan a hike, what to bring, how to stay safe, and Leave no Trace principles. Hike along, using your keen senses to explore our woodland community! *Daisy Trail Adventure Badge*

Daisy Scientist

What is pollution? Using data cards, scouts will learn to categorize what they find along our 2,000 feet of shoreline. See what materials are most commonly found and what you can do to help! *Daisy Responsible for What I say & Do Petal or Daisy Between Earth and Sky Journey Clover award*. Must be scheduled within 4 hours of low tide.

Juliette's Garden

Explore the beautiful bird and butterfly-friendly gardens to learn how plants, insects and birds interact to form a thriving "community". Girls will dissect a flower and then create a piece of artwork. Only offered June-September. 1 hour 15 minutes long. *Daisy Responsible for What I say & Do Petal or Daisy Between Earth and Sky Journey Clover award*.

Our Native American Friends Daisies, Brownies

Learn about the Native American way of life including foods, clothing, shelter and tools through selected museum exhibits. Girls will explore our interactive "Woodland Village" with activities depicting Native American life ways. Go in a real dugout canoe, our wigwam, plant seeds in our pretend garden, and put bark shingles on a wigwam. 1 hour 15 minutes long. *Daisy Using Resources Wisely Petal, Brownie Celebrating Community Badge*

For Brownies

Native American Pottery

Experience 70-million-year-old clay! We will take a short walk down to the beach to see our natural clay deposits then scouts will immerse themselves in our hands-on pottery making program. Scouts will use store bought clay (to preserve the natural clay) to make their own pottery to take home. 1 hour 15 minutes long. Must be scheduled within 4 hours of low tide. *Brownie Potter Badge*.

\$15 per participant per program
Minimum of 5, Maximum 25 per program.
Tagalongs welcome (age permitting) if total number is within 25.
\$4 per adult, 2 Leaders free
Must pay minimum of \$75.00
IN ADVANCE of program
Payable to: FRIENDS OF GARVIES POINT

Celebrating Over 50 Years

Brownie Trail Adventure

Join us for 3 awesome trail adventures through the woods & meadow and along the beach! Learn how to prepare for the outdoors including proper attire, planning, safety, and Leave no Trace principles. 1 hour 15 minutes long. Must be scheduled within 4 hours of low tide. *Brownie Trail Adventure Badge.*

Brownie Outdoor Adventurer

Hike through the woods to learn about birds, trees, and animals. Learn how to blow a grass whistle and tie knots. Amazing adventures wait you in the great outdoors! 1 hour 15 minutes long. *Brownie Outdoor Adventurer Badge*

Brownie Outdoor Art Creator

Explore the beauty in nature! Observe art forms during a nature scavenger hunt, listen to bird calls & sounds of nature, use magnifiers to focus in on miniature world of nature, observe animal architects, make tiny animal homes and make a lasting piece of artwork from nature! *Brownie Outdoor Art Creator.*

Bugs

Discover the varied insect life of our meadow, preserve and gardens as we explore their homes, what they eat & eats them, their lifecycles, and more! Make a cool bug craft as we learn about the parts of an insect. 1 hour 15 minutes long. *Brownie Bugs Badge*

Tools & Artifacts // Brownies, Juniors

This hands-on program reveals how Native Americans made and used tools, such as stone-working and woodworking tools, as a means of adapting their environment to meet their life needs. Participants will be able to handle authentic tools and other artifacts. In addition, they will have an opportunity to use replicated tools such as mortars and pestles to grind corn, fire drills for making fire, and pump drills for drilling holes in stone. 1 hour 15 minutes long. *Brownie Inventory Badge, Junior Playing the Past Badge*

Stream Erosion: Agent of Change // Juniors

Understand why and how water erodes the landscape. Scouts will observe our exciting stream table demonstration that compares youthful and mature streams. Followed by short walk to beach to see these erosional features in the field. 1 hour 15 minutes long. Must be scheduled within 4 hrs. of low tide. *Junior Agent of Change Journey, The Power of One Award.*

Fascinating Flowers // Juniors

There is so much to learn about flowers! Do all plants have flowers? We will explore the parts of a flower, all about pollination, where fruit comes from, diversity of flowers & fruits, how seeds spread and so much more! Flower craft. More to explore during late Spring-late Fall. 1 hour 15 minutes long. *Junior Flower Badge.*

Investigating Minerals // Juniors, Cadettes

Did you know that rocks and minerals support all living things physically? At this very moment, you are standing on rocks and minerals! They are a source of soil upon which plants grow. They provide the metals used to build the tallest buildings that can withstand the toughest storms. Girls will perform tests to determine color of streak, luster, hardness and the special properties of minerals. 1 hour 15 minutes long.

Trees // Cadettes

Explore the woods at our preserve! Scouts will learn different ways to identify trees, interactions between plants and animals, how Native Americans used natural resources to build their homes plus scouts will also make leaf rubbing ID booklets. 1 hour 15 minutes long. *Cadette Tree Badge.*

Interpreting Skeletal Remains // Cadettes, Seniors, Ambassadors

Examine authentic skeletal remains. Scouts will move from one station to another to determine gender, physiological age, disease and trauma. Each scout must bring a calculator, no cell phones please. 1.5 hours long. *Cadette Special Agent Badge.*
