NEW COURSE BEGINS January 20th, 2010

Wednesdays, 9:30-12:30pm or 1-4pm

10 LESSONS $200.00

small class size - individualized attention

Fully equipped professional studio *complete hands-on course*

Learn both basic and advanced jewelry making techniques. Basic skills include sawing, soldering, forming and texturing. Through weekly demonstrations students complete projects of their own design. Advanced techniques include stone setting, stringing wax carving and working in gold. Students with experience will also learn ring making, stone setting, wax carving, and more. Our studio is well equipped and large with most of the needed tools, including forming blocks, pliers, saws, polishers, flexible shafts, torches, hammers, and a rolling mill.
